

CREATE LINKS AND SOCIAL CONNECTIONS!

EASY MEET

Networking is a key objective of all events and easyMEET has got it covered!

PERFECT NETWORKING TOOL

This online networking platform enables guests to register before the event, creating a professional profile page.

EFFICIENT SPEED DATING

Once registered, attendees can view the profiles of other attendees and exchange messages and arrange meetings to take place at the event. When a meeting is confirmed, a personal diary is created for the users on their profile page with the appointment marked on.

RESPECT OF PRIVACY

EasyMEET can be combined with several other OneTec tools:

- 1 - easyNFC for exchanging virtual business cards
- 2 - easySMS for receiving text message reminders of your meeting appointments
- 3 - easyREG for collecting the data from the registration platform to create the profile page.
