

## AN INTERACTIVE MAGNETIC NAMEBADGE !

# EASYNFC

**Personalised badges with a magnetic chip that can be charged with personal data or virtual money, depending on its usage.**

### ENDLESS TECHNOLOGY

The chip can be read by NFC readers to perform actions such as V-Card exchanges, document downloads, virtual payment or access to restricted areas.

### FUN & USEFUL APPLICATIONS

Creativity is the only limit of NFC technology – if you can think it, we can make it happen!

The OneTec team will work with you to build this technology into your conference and realise its full potential, guaranteeing an effective and positive experience for easyNFC users!
