

CONTACT YOUR ATTENDEES INSTANTLY BY SMS

# EASY SMS

**Instant communication with every attendee during your event through short SMS alerts. This is what easySMS offers!**

-  **MULTI-PURPOSES FACILITY**
-  **REAL-TIME COMMUNICATION**
-  **INTEGRATES WITH EASYBADGE**

During the registration process, easyREG and easyBADGE can collect the mobile phone numbers of your guests.

Then our easySMS system is able to send SMS messages to a targeted group or to all of your delegates with up-to-date information or important updates. The content could include logistical details, advertisements from sponsors or schedule reminders, etc.

The phone numbers are automatically deleted from the database after the event to guarantee the protection of personal data.
