

DIGITAL SIGNATURE TECHNOLOGY NO MORE SIGN IN SHEETS!

EASY SIGN

Collecting the signatures of your event attendees is no easy task, and can create queues at big-scale events. EasySIGN offers a simple and practical alternative.

**COLLECT ALL RECORDS
IN ONE FILE**

**MULTI-PURPOSES FEAT-
TURES**

**CONNECTED TO THE
EASYBADGE SYSTEM**

Combined with easyBADGE, your event attendee will present his/her barcode to be scanned and the personal badge will be issued. A small and easy-to-use touchscreen is presented to the attendee who can then sign in with his/her finger or stylus.

The tablet automatically links the signature to the attendee's name in the easyBADGE database. When exported to Excel, a digital image of each signature will appear in a separate column.
